

My husband and I are concerned that LPFM stations may take our favorite radio station off the air, K-LOVE. We listen to the station in the car traveling or cleaning at home, it brings positive messages and uplifts our day. Many of my friends choose to listen to K-Love as an alternative to the negative messages broadcasted from other pop culture stations. If K-love were not available, we would not listen to the radio at all as our other alternative.
